

## About Us

### About Us Is a Long Story but I'll Keep It Short

I've been around long enough to have spent time in the seminar, the Marine Corps, education, storefront business ownership, sales, management, coaching, corporate consulting and, of course, my favorite HOME BASED BUSINESS. Fact is, I've worked out of my home for over 22 years.

Sometimes, I had a single table and chair and sometimes I've looked out over the pool.

Sometimes, I hardly worked and, sometime it seems, I never stopped working. Sometimes, I made a lot of money and sometimes we barely got by. What was the difference. Sometimes, I knew what I was doing and sometimes I had a great product and the smarts to leverage it to make my life better.

That's what I am doing now as a Certified Professional Coach with TW3. [TerryWilson3.com](http://TerryWilson3.com) is a treasure trove of great ideas, great tools, great training, and great opportunity. Is it right for you? If it is I'll encourage you to join of us. If I do not think it is right for, I'll tell you straight up. That is what was professional coaches do. My responsibility is to help you make a great decision. I promise you I will do that.
