

## Live Green Your Way

### Live Green Your Way to Health, Savings and Wealth

#### About LIVE GREEN

Live Green (LG) asks if you are tired of being paid less than you are worth ... of being unemployed or under-employed ... and ... of not seeing a path that leads to the lifestyle you desire? Let me ask four additional important questions. They are important to your health, to your budget, and to your income.

*Would you buy organic and natural products if you could buy them at wholesale? W*

*Would you buy those products if they were delivered to your door at no charge?*

*Would you value buying all types of products from major retailers like Home Depot, Wall Mart, Macy's, Target and hundreds of others?*

Would you value being able to profit from offering these products as a home-based business?

Studies show that 50% of Americans feel the same way that you do. Only 4% of Americans are currently able to buy organic and natural products at prices they can afford. They also are not able to get cash back from purchases from major retailers. Clearly, there is a huge pent up need. Online buying has gone mainstream. Amazon.com outsells Wall Mart online by 900%. The ratio is much higher for against other major retailers.

Live Green delivers the organic and natural products you seek to your door at wholesale prices. Major retailers like Target, Macy's, Home Depot, Wall Mart and some 500 others partner with LG. You get cash back on your purchases from these major retailers. Think of the opportunity for savings and income that you could offer to others if that were the right thing for you to do.

*Do you think others would like to spend more time with family? Would like to work at home? Would like to earn what they are worth? Would like to increase their income? A Live Green home based business is making that happen for others. **Why not for YOU and THEM?***

After careful study of the market and the principals, the Home Based Business Doc added LG as a business partner. Online sales increase dramatically every year and the demand for organic and natural products at an affordable price is huge. You can join for the wholesale pricing on organics and natural products and for the cash back on major retailer purchases. You can also join to enjoy your own home based business and help others do the same.

Every home needs a home-based business!
